Hardware: Any True Value or Ace hardware store should carry neoprene washers, 24g Galvanized Steel Wire (in picture hanging section) and connector bolts for furniture.

Tools:

Bent Nose Pliers - <https://www.amazon.com/gp/product/B0058EDEPG>
(these can also be found at larger Joann Craft Stores and Jewelry Supply Stores)

Wire Cutters - These don't have to be heavy duty so whatever you can find at your local hardware store will be fine. A heavy pair of scissors will also work in a pinch.
